## Software price list

2010

### **MULTI USER :**

Multi user system allows for any number of stations at one location. To set up the # of stations you wish to operate on 1 network, simply look at the listing of the # of stations and price accordingly.

### **MULTI SITE :**

Multi site systems are designed for multiple sites or locations. This program is a bi-directional transfer of data program. Head office uploads new inventory information, new products as well as new pricing as well as customer information, to remote locations. Information The Remote locations also transfer their inventory their customer information as well as sales figures. Each location will have all the see the inventory stock customers info for all customers and be able to program location position for all locations. \*\*\* each location has to have a loaded plus add on the multi site program per

### **CUSTOMIZATIONS:**

We actively solicit input from the users of our programs. If the features suggested are ones that in the opinion of our Programming Team, would enhance the overall operation of the program, than these features or options will be included in the program, FOR FREE and an update of the program, with these features or options included will be provided at no business, charge. If however, the features or options are ones that are special to how you conduct your then a flat rate quotation .for that customization will be provided

### **SUPPORT**

Each program comes with 30 days FREE unlimited telephone & online support from the date of purchase. This includes online interactive training and updates to the current version of the program.

**Retail programs per modules per station**

**Hospitality programs per module per station**

**Retail programs multi site per location**

**Hospitality programs multi site per location**

### **WARRANTY**

Classic warranties the programs to be free of operational defects. Should a problem be brought to our attention by a user of the program Classic warranties that it will fix the problem and provide a program update free of charge. This warranty does not include feature or option upgrades and is limited to fixes to the existing program only.

### **COMPUTERS & PERIPHERALS:**

Classic Software is your one stop for all your POS needs ! We stock computers and peripherals and they all work with the programs we sell !. We've checked ! We can offer a quotation on a complete POS system. Purchase of a complete system includes loading of the program and all peripherals are set up. If you are supplying your own computers we can provide peripherals or simply supply you with the program only.
