IN THE RESTAURANT & BAR INDUSTRY, THE PROBLEM IS TIME:

Time is money. Each table or customer that isn't handled quickly and productively adds up to huge amounts of money lost, every year. What every restaurant owner or manager wants is a way to handle their customers more cost efficiently. Everything has to work their way.

THE SOLUTION IS CLASSIC 2000 plus RESTAURANT & BAR MANAGEMENT SOFTWARE:

We have designed the Classic 2000 plus Restaurant & Bar management system to solve time and energy consuming problems. It gives cost effective, easy to customize control over an entire restaurant operation, making everything more streamlined and easier to handle.

CLASSIC 2000 plus RESTAURANT & BAR MANAGEMENT SOFTWARE has a full-featured Point of Sale, with fast takeout, delivery, reservations and fine dining. Everything is integrated and works together. It's a snap to understand and it is modifiable to every restaurant's exact needs.

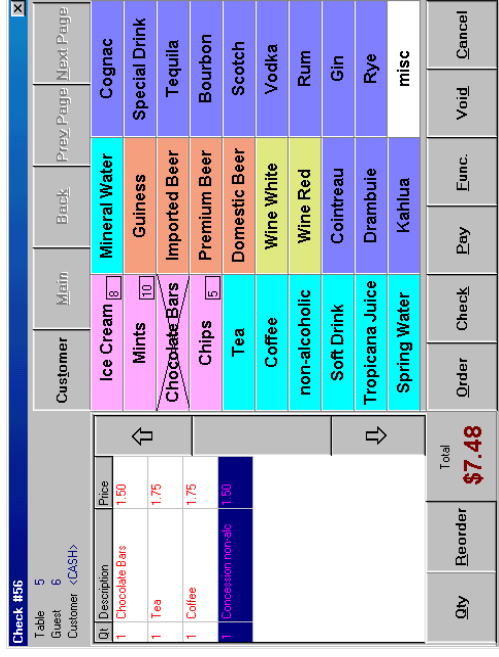

BEFORE CLASSIC 2000 plus RESTAURANT & BAR MANAGEMENT SOFTWARE, only large restaurants could afford such a simple solution to restaurant and bar sales but now, the technology is easily affordable for ANY operation - so you too can enjoy the benefit from immediate time and cost savings as well as provide absolute control.

Add in the CLASSIC 2000 plus CATERING MANAGEMENT SYSTEM or the CLASSIC 2000 plus MEMBERSHIP MANAGEMENT SYSTEM both of which are fully integrated to the Restaurant & Bar system.

If you have multiple locations, then add the CLASSIC 2000 plus MULTI SITE system, which uploads the menu from Head Office to any Remote locations set by the user and downloads the daily sales and customer transactions to Head Office.

The System includes full staff scheduling, with the ability to send messages from the back office to any stations on the network, as well as message back to back office.

WHAT CLASSIC 2000 plus RESTAURANT & CATERING MANAGEMENT SOFTWARE CAN DO :

- * - with automatic POS entry and remote printing to anywhere in your restaurant and bar, whether kitchen or bar or wherever, your customers can now get quick and efficient service .
 - * - built in time clock system helps determine levels or productivity and also gives added control over restaurant and bar activity.
 - * - gives quick, reliable, accurate financial and sales data for easier and more accurate decision making
 - * - provides neat, well organized records that can be accessed in a matter of minutes
 - * - improves the restaurant and bar's cash flow by minimizing inventory and more effective purchasing
 - * - reduce inventory shrinkage
 - * - helps substantially reduce the time a transaction takes as well as increase accuracy
 - * - gives you remote control of your restaurant and bar via modem, from a head office location with the multisite version
 - * - gives your restaurant or bar a more modern and professional business image
- This is a management system for a restaurant or bar, that requires flexibility, at a low cost.
- We also dramatically reduce the set up costs by creating a user friendly, easy to use menuing and inventory setup procedure.
- If you are uncomfortable with paying so little and getting so much - **GET USED TO IT!**

In today's demanding Restaurant environment, you have to have tight control over food and labour costs. You need to increase member satisfaction and attendance. This program gives you all the tools you need to analyse and control your club, quickly and easily. A partial list of features and options are shown below.

THE COMPANY

Classic Software Systems Inc. was founded in 1990 as a software development and POS distribution company. Classic Software introduced Classic 2000 POS & Accounting in 1995, adding Classic 2000 plus Restaurant & Bar in January, 2000, merging many years of restaurant know-how, accounting expertise and state of the art system design technology available from staff which includes software engineers, accounting professionals and former restaurant managers. The Club Management Software was added in 2001.

Classic Software is devoted to providing it's customers with effective restaurant and bar systems to help them achieve the highest level of service and management efficiency. Our mission is to ensure that our customers get the most advanced, reliable, cost effective software technology available today. We back up our commitment with the strongest service, support and training you will find anywhere.
