Designed for either TOUCH SCREEN or keyboard input, this system is the most efficient and easy to use Restaurant & Bar Management System available today.

The latest Microsoft 32 bit OS gives the best combination of superior graphics-user interface and robust networking capability.

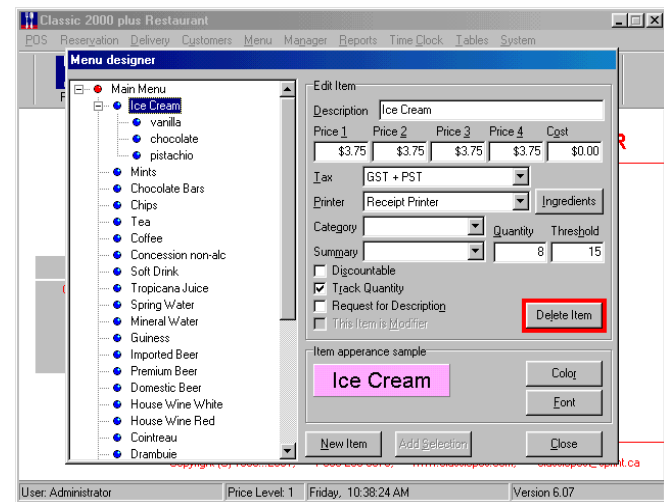

**IN THE CATERING & RESTAURANT INDUSTRY, THE PROBLEM IS TIME:**

Time is money. Each table or customer that isn't handled quickly and productively adds up to huge amounts of money lost, every year. What every catering & restaurant owner or manager wants is a way to handle their customers more cost efficiently. Everything has to work their way.

**THE SOLUTION IS CLASSIC 2000 plus CATERING & RESTAURANT MANAGEMENT SYSTEM**

We have designed the Classic 2000 plus Catering & Restaurant management system to solve time and energy consuming problems. It gives cost effective, easy to customize control over an entire catering or restaurant operation, making everything more streamlined and easier to handle.

**CLASSIC 2000 plus CATERING & RESTAURANT MANAGEMENT SOFTWARE** has a full-featured Point of Sale, with fast takeout, delivery, reservations, catering and fine dining. Everything is integrated and works together. It's a snap to understand and it is modifiable to every club's exact needs.

**BEFORE CLASSIC 2000 plus CATERING & RESTAURANT MANAGEMENT SOFTWARE**, only large operations could afford such a simple solution to catering & restaurant sales but now, the technology is easily affordable for ANY operation - so you too can enjoy the benefit from immediate time and cost savings as well as provide absolute control.

**WHAT CLASSIC 2000 plus CATERING & RESTAURANT MANAGEMENT SOFTWARE CAN DO :**

- \* - with automatic POS entry and remote printing to anywhere in your business whether kitchen or bar or wherever, your customers can now get quick and efficient service .
- \* - built in time clock system helps determine levels or productivity and also gives added control over restaurant and bar activity.
- \* - gives quick, reliable, accurate financial and sales data for easier and more accurate decision making

Qty Reorder Total \$7.48 Order Check Pay Func Void Cancel

- \* - provides neat, well organized records that can be accessed in a matter of minutes
- \* - improves the catering & restaurant's cash flow by minimizing inventory and more effective purchasing
- \* - reduce inventory shrinkage
- \* - helps substantially reduce the time a transaction takes as well as increase accuracy
- \* - gives you remote control of your catering and restaurant business via modem, from a head office location with the multisite version
- \* - gives your catering or restaurant business a more modern and professional business image

This is a management system for every catering or restaurant, that requires flexibility, at a low cost.

We also dramatically reduce the set up costs by creating a user friendly, easy to use menuing and inventory setup procedure.

If you are uncomfortable with paying so little and getting so much - **GET USED TO IT!**

In today's demanding CATERING & RESTAURANT environment, you have to have tight control over food and labour costs. You need to increase customer satisfaction. **THE COMPANY**

Classic Software Systems Inc. was founded in 1990 as a software development and POS distribution company. Classic Software introduced Classic 2000 POS & Accounting in 1995, adding Classic 2000 plus Restaurant & Bar in January, 2000, merging many years of restaurant know-how, accounting expertise and state of the art system design technology available from staff which includes software engineers, accounting professionals and former restaurant managers. The Club Management Software was added in 2001.

Classic Software is devoted to providing it's customers with effective restaurant and bar systems to help them achieve the highest level of service and management efficiency. Our mission is to ensure that our customers get the most advanced, reliable, cost effective software technology available today. We back up our commitment with the strongest service, support and training you will find anywhere.
