**IN THE CLUB INDUSTRY, THE PROBLEM IS TIME:**  
 Time is money. Each club member that isn't handled quickly and productively adds up to huge amounts of money lost, every year. What every club manager wants is a way to handle the members more cost efficiently. Everything has to work their way.

**THE SOLUTION IS CLASSIC 2000 plus CLUB MANAGEMENT SOFTWARE:**

We have designed the Classic 2000 plus club management system to solve time and energy consuming problems. It gives cost effective, easy to customize control over an entire club operation, making everything more streamlined and easier to handle.

**CLASSIC 2000 plus CLUB MANAGEMENT SOFTWARE** has a full-featured Point of Sale, with fast takeout, delivery, reservations, catering and fine dining. Everything is integrated and works together. It's a snap to understand and it is modifiable to every club's exact needs.

- \* - gives quick, reliable, accurate financial and sales data for easier and more accurate decision making
- \* - provides neat, well organized records that can be accessed in a matter of minutes
- \* - improves the clubs cash flow by minimizing inventory and more effective purchasing
- \* - reduce inventory shrinkage
- \* - helps substantially reduce the time a transaction takes as well as increase accuracy
- \* - gives you remote control of your club via modem, from a head office location with the multisite version
- \* - gives your club a more modern and professional business image

This is a management system for a club that requires flexibility, at a low cost.

We also dramatically reduce the set up costs by creating a user friendly, easy to use menuing and inventory setup procedure.

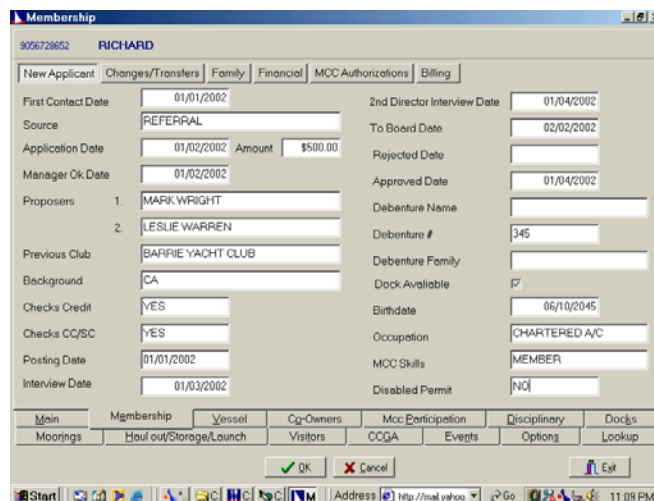

If you are uncomfortable with paying so little and getting so much - **GET USED TO IT!**

**BEFORE CLASSIC 2000 plus CLUB MANAGEMENT SOFTWARE**, only large clubs could afford such a simple solution to club sales membership and management but now, the technology is easily affordable for ANY operation - so you too can enjoy the benefit from immediate time and cost savings as well as provide absolute control.

**WHAT CLASSIC 2000 plus CLUB MANAGEMENT SOFTWARE CAN DO :**

- \* - with automatic POS entry and remote printing to anywhere in your club, whether kitchen or bar or wherever, your members can now get quick and efficient service .
- \* - built in time clock system helps determine levels or productivity and also gives added control over club activity.

**In today's demanding club environment, you have to have tight control over food and labour costs. You need to increase member satisfaction and attendance. This program gives you all the tools you need to analyse and control your club, quickly and easily. A partial list of features and options are shown below.**

**THE COMPANY**

Classic Software Systems Inc. was founded in 1990 as a software development and POS distribution company. Classic Software introduced Classic 2000 POS & Accounting in 1995, adding Classic 2000 plus Restaurant & Bar in January, 2000, merging many years of restaurant know-how, accounting expertise and state of the art system design technology available from staff which includes software engineers, accounting professionals and former restaurant managers. The Club Management Software was added in 2001.

Classic Software is devoted to providing it's customers with effective restaurant and bar systems to help them achieve the highest level of service and management efficiency. Our mission is to ensure that our customers get the most advanced, reliable, cost effective software technology available today. We back up our commitment with the strongest service, support and training you will find anywhere.
